2nd Global Virtual Summit on “Materials Science and Engineering”

18th & 19th November, 2021

Theme : Materials Science for better Future

<https://materialsummit.researchwaves.com/>

Materials Science and Engineering (**Materials Summit 2021**) provides an ideal platform and opportunity for all the young researchers to connect with eminent Scientists and Industrialists. The Conference is a premier enlightening and networking for all industry stakeholders, policy makers, investors, industry and research community to exchange experiences and challenges related to development and scaling up in the field of Materials Science and Nanotechnology.

Session & Highlights

- Computational materials science
- Products and services
- Teaching and technology transfer in materials science
- Global materials science market
- Modern materials needs
- Research support
- Platform for comprehensive projects
- Emerging materials and applications
- Tribology
- Forensic engineering
- Engineering applications of materials
- Scientific and business achievements
- Synthesis of nanomaterials and properties
- Environmental health and safety of nanomaterials
- Micro, nano and bio fluidics
- Nano and microfibrillated cellulose
- Cancer nanotechnology
- Medical nanotechnology
- Nanophotonics
- Nanoelectronics
-and many more
